

# V150

## Back Pressure Regulating Valve

### Primary Application:

load modulation at transfer pumps  
boiler loop back-pressure regulation

### Standard Construction:

Diaphragm Style Valve for Precision Control  
Carbon Steel Body  
Viton Diaphragm  
NPT Threaded  
150 PSI Pressure Rating  
Inlet-Outlet Pressure Indicators  
5-100 PSI Pressure Range - Adjustable

### Options:

Socket Weld (-SW) or Flanged 150 LB RF (-FL)  
Pressure Transmitter (-PT) or Pressure Switch (-PS)
